Notes to the Interim Condensed Consolidated Financial Statements
(Unaudited, Expressed in Canadian Dollars)
For the Three and Six Month Period Ended June 30, 2021 and 2020

1. NATURE OF OPERATIONS AND GOING CONCERN

Liquid Avatar Technologies Inc. (the “Company” formerly KABN Systems NA Holdings Corp.) was incorporated under the Company Act of British Columbia, Canada on September 10, 2014. The Company wholly owns Liquid Avatar Operations Inc. (formerly KABN Systems North America Inc. “Opco”) as a result of the reverse takeover transaction completed on June 4, 2020. Pursuant to the Amalgamation Agreement arising out of the reverse takeover transaction, the Company acquired all of the issued and outstanding shares of Opco in exchange for issuance of common shares of the Company. The transaction resulted in the business of Opco becoming the business of the Company (Note 4). The Company through Opco is a digital identity fintech Company focused on empowering customers to verify, manage, control, and create value from their online identity and public, permission-based data through self-sovereign identity solutions delivered through the Company’s product offerings. Opco is the exclusive licensee of KABN (Gibraltar) Ltd’s intellectual property for use in the United States and Canada.

On March 1, 2021, the Company changed its name from KABN Systems NA Holdings Corp. to Liquid Avatar Technologies Inc. and its ticker symbol from KABN to LQID. On March 9, 2021, The Company incorporated and wholly owns Oasis Digital Studios Limited.

As at June 30, 2021, Crypto KABN Holdings Inc. and KABN Gibcan Inc. held a combined 23.80% of the Company’s total common shares outstanding. KABN (Gibraltar) Ltd. controls KABN Gibcan Inc.

The address of the Company’s head office is 1-7357 Woodbine Avenue Suite 605, Markham, Ontario L3R 6L3 and the registered and records office is 2200 HSBC Building, 885 West Georgia Street, Vancouver B.C., V6C 3E8, Canada.

The Company’s interim condensed consolidated financial statements (“interim financial statements”) as at June 30, 2021 have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, and prior operating results. During the six month period ended June 30, 2021, the Company has incurred a net loss of \$5,498,551 and as of June 30, 2021, had a deficit of \$11,751,175. These factors raise substantial doubt about the Company’s ability to continue as a going concern. The continued operations of the Company are dependent on its ability to generate future cash flows from operations or obtain additional financing. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company’s liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. If the Company is unable to raise additional capital in the future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern. The interim financial statements do not include any adjustments that might result from the outcome of this uncertainty. Such adjustments could be material.

These interim financial statements were authorized for issue by the Board of Directors on August 27, 2021.

Liquid Avatar Technologies Inc. (formerly KABN Systems NA Holdings Corp.)
Notes to the Interim Condensed Consolidated Financial Statements
(Unaudited, Expressed in Canadian Dollars)
For the Three and Six Month Period Ended June 30, 2021 and 2020

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

These interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”) on a basis consistent with the accounting policies disclosed in the audited financial statements for the year ended December 31, 2020.

These interim financial statements do not include certain information and disclosures normally included in annual financial statements prepared in accordance with IFRS and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2020.

These interim financial statements have been prepared on a historical cost convention. In addition, these interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The comparative figures presented throughout these interim financial statements are the historical results of Liquid Avatar Operations Inc. (formerly KABN Systems North America Inc.)

These interim financial statements have been prepared in Canadian dollars which is the functional currency and presentation currency of the Company.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Company's interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the estimated useful life of intangibles, impairment of intangibles and valuation of the components of equity and assessment of COVID-19 pandemic's impact on the Company's business. The useful lives could change significantly as a result of technical innovations or some other event. The amortization charge will increase where the useful lives are less than previously estimated lives, or technically obsolete that have been abandoned will be written off or written down. From time to time the Company issues common shares for services or non-cash assets. The Company's Board of Directors determines the fair market value of the services or non-cash assets received in exchange for common shares. These transactions are typically valued using the fair value of common shares issued.

The Company uses the Black Scholes option pricing model to determine the fair value of stock options in order to calculate stock based compensation expense. The Black Scholes model involves six key inputs to determine fair value of a stock option: risk-free interest rate, exercise price, market price at the date of issue, expected dividend yield, expected life and expected volatility. Certain of the inputs are estimates that involved considerable judgment and are or could be affected by significant factors that are out of the Company's control.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (Cont'd)

The Company has been closely monitoring developments related to COVID-19, including the existing and potential impact on global and local economies. The Company has implemented its business continuity plan ensuring minimal interruption to the business. Governments worldwide have since put in place various measures to contain the spread of the virus, which have directly and indirectly impacted many businesses. The COVID-19 pandemic presented some challenges in delays in raising financing but otherwise did not have any other significant impact on the Company's interim financial statements. The longer-term impacts of the COVID-19 situation will depend on future developments which are highly uncertain, rapidly evolving and difficult to predict. These impacts may differ in magnitude depending on a number of scenarios, which the Company continues to monitor and take into consideration.

4. REVERSE TAKEOVER TRANSACTION

On January 13, 2020, the Company and its newly formed wholly owned subsidiary 2733668 Ontario Inc. ("Subco") entered into an Amalgamation Agreement (the "Amalgamation Agreement") with Opco, an arm's length private company, whereby the Company would acquire Opco (the "Transaction"). The Transaction is structured as a "three-cornered amalgamation" whereby Opco amalgamated with Subco, thereby forming Amalco. Amalco is a wholly-owned subsidiary of the Company and concurrently the Company would change its name from KABN Systems NA Holdings Corp. (and later to Liquid Avatar Technologies Inc). Pursuant to the Amalgamation Agreement, the Company would acquire all of the issued and outstanding shares of Opco in exchange for issuance of common shares of the Company. The Transaction would result in the business of Opco becoming the business of the Company.

Because the former shareholders of Opco obtained control of the Company, the Transaction is considered a purchase of the Company by Opco and is accounted for as a reverse acquisition. This reverse acquisition is not a business combination and therefore is outside the scope of IFRS 3 Business Combinations. As Opco has granted equity investments in return for goods and services received, the transaction falls under the scope of IFRS 2 Share Based Payment. The consideration is based on the fair value of the Company's common shares that were exchanged as this is the most reliable indicator of fair value. The consideration is recognized with a corresponding increase in the equity of the Company.

The consolidated statement of financial position gives effect to the acquisition of KABN's outstanding common shares by the Company in accordance with accounting guidance pertaining to reverse acquisitions under IFRS. All of the Company's deficit and other business equity balances prior to the Transaction are eliminated as follows:

• Share capital	\$7,162,975
• Share-based payment reserve	\$576,682
• Deficit	\$7,795,318

5. PORTFOLIO INVESTMENT

On June 16, 2021, the Company made an investment in Indicio PBC ("Indicio") of \$100,000 USD or \$122,722 CAD. The Company currently uses the services of Indicio in its product development activities. The investment is in the form of a convertible promissory note whereby the maturity date is June 16, 2023, carrying an interest rate of 4% per annum. Interest is only payable on maturity or on conversion will form part of the conversion consideration. Upon an equity financing in Indicio, meeting certain valuation criteria, the promissory note and any accrued interest will automatically convert into common shares of Indicio. The Company has accounted for this investment as fair value through profit and loss, which at June 30, 2021 was considered equal to its carrying value

6. INTANGIBLE ASSETS (Cont'd)

On May 15, 2019, the Company entered into a sublicensing agreement with KABN (Gibraltar) Ltd. (the "licensing agreement") which grants the Company an exclusive sublicense to KABN (Gibraltar) Ltd's financial services platform, with identity and verified credential intellectual property and revenue programs in the US and Canada (Note 1). The cost of intangibles represents the initial license fee of US\$1,000,000 payable upon execution of agreement, of which \$325,000 was paid by way of issuance of 32,500,000 common shares of the Company at \$0.01 per share.

7. SHARE CAPITAL

Authorized Share Capital

The Company is authorized to issue an unlimited number of common shares without par value.

Issued Share Capital

As at June 30, 2021 the Company had issued and outstanding 106,528,419 common shares (December 31, 2020 – 96,216,472).

On June 4, 2020, the Company received final approval from the Canadian Securities Exchange for completion of the reverse takeover transaction described in Note 4. The completed transaction resulted in 5,972,286 common shares to the former shareholders of Torino Power Solutions Inc.

On May 20, 2020, the Company closed its first tranche of a private placement priced at \$0.15 per unit and issued 6,279,913 units for gross proceeds of \$569,442 and settlement of debt and service agreements of \$205,005. Proceeds raised in advance of the closing are included in the closing. The closing also includes agreement to settle the bridge loan, loan fees and accrued interest totaling \$167,540. Each unit consists of one common share and one-half share purchase warrant. Each whole warrant entitles a holder to purchase one common share at \$0.20 per share, and expires at 18 months following the closing date of the private placement unless the acceleration clause is met under which exercise can be enforced by the Company with a closing price of \$0.30 or higher for 20 consecutive trading days on a regulated market.

On June 1, 2020, the Company closed its second tranche of a private placement priced at \$0.15 per unit and issued 8,210,999 units for gross proceeds of \$796,650 and settlement of service agreements of \$435,000, on the same terms as the May 20, 2020 first tranche of the private placement.

Share issuance costs for the May 20, 2020 and June 1, 2020 private placements totaled \$72,435, of which \$14,168 was in the form of finder's warrants (Note 8).

On December 21, 2020, the Company closed a non-brokered private placement priced at \$0.15 per unit and issued 19,999,997 units for gross proceeds of \$2,855,100 and settlement of debt and service agreements of \$144,900. Proceeds raised in advance of the closing are included in the closing. Each unit consists of one common share and one share purchase warrant. Each whole warrant entitles a holder to purchase one common share at \$0.20 per share and expires at 24 months following the closing date of the private placement.

12. FINANCIAL INSTRUMENTS (Cont'd)

Risk Exposure

The Company's consolidated financial instruments expose it to a variety of financial risks: market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk. These risks arise from the normal course of operations and all transactions are undertaken to support those operations. Risk management is carried out by management under policies approved by the Board of Directors. Management identifies and evaluates the financial risks in cooperation with the Company's operating units. The Company's overall risk management program seeks to minimize potential adverse effects on the Company's financial performance, in the context of its general capital management objectives (Note 13).

Concentration of Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Company did not have significant exposure to credit risk as at June 30, 2021 and December 31, 2020.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with financial liabilities. The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support its normal operating requirements.

The Company's ongoing liquidity is impacted by various external events and conditions. The Company expects to repay its financial liabilities in the normal course of operations and to fund future operational and capital requirements through operating cash flows, as well as future equity and debt financing.

The Company coordinates this planning and budgeting process with its financing activities through the capital management process described in Note 13. The Company's financial liabilities are comprised of its accounts payable and accrued expenses and due to KABN (Gibraltar) Ltd. The contractual maturities of which are summarized as follows:

	June 30, 2021	December 31, 2020
Financial Liabilities with contractual maturities		
Within 90 days or less	\$ 977,134	\$ 691,233

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

As at June 30, 2021 and December 31, 2020, the Company has no significant exposure to interest rate risk.
